HOSTEL MANAGEMENT SYSTEM

The purpose of Hostel Management System is to carry out different operations of a hostel. This system will streamline activities by performing all of them on a computer. It helps to manage student and staff records.

- Receptionist can login using credentials provided to him.
- Receptionists can allot rooms to students.
- Wardens can login using their credentials and monitor the activities of the hostel.
- Students can login using the credentials and make suggestions, giving valuable feedback.
- Caterers can post updates on the menu and availability of food.
- Warden appoints staff of various functions such as janitorial staff.
